

PRODUCT NAME:

5TH AVENUE

PRODUCT CODES:

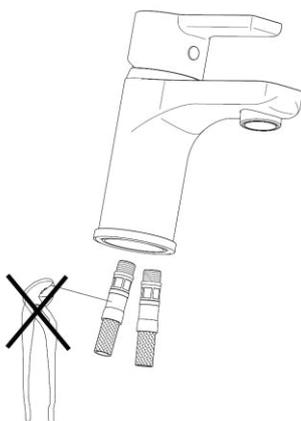

299-3101-01 - black matt
299-3101-02 - chrome

PRELIMINARY INFORMATION:

This single lever mixer is fitted for working with hot water supplied by pressure accumulators.
For instantaneous electric or gas water heaters the power must be higher than 18 KW (250 Kcal/min.).
CAUTION: do not use hot water accumulators without pressure with this mixer.

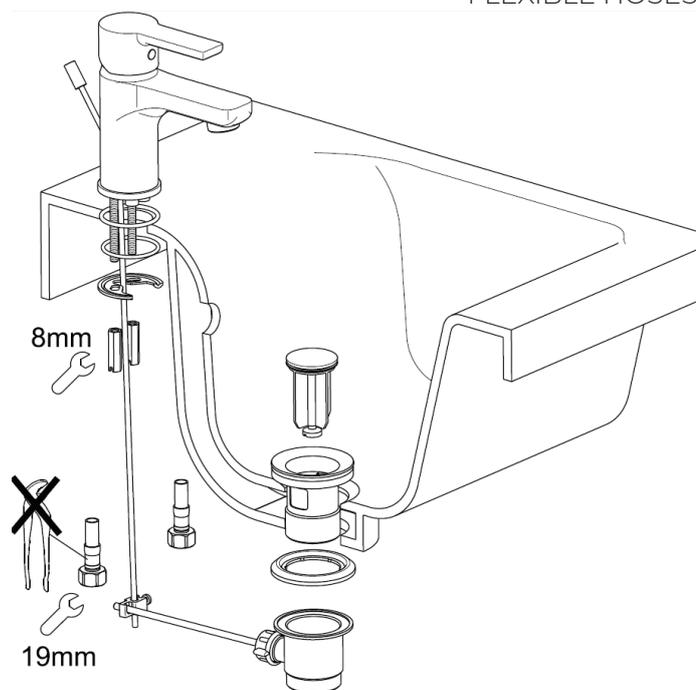

SPECIFICATIONS:

- Minimum dynamic pressure 1,5 bar
- Maximum operating pressure (static) 10 bar
- Recommended operating pressure (static) 2-5 bar
- Maximum test pressure (static) 16 bar
- Maximum hot water temperature 65 °C

FAUCET INSTALLATION
POP-UP INSTALLATION

Screw the water inlet hoses onto the tap body by hand.
ATTENTION: DURING THE OPERATION, AVOID HOLDING THE BUSHINGS OF THE FLEXIBLE HOSES WITH PLIERS OR WRENCHES OF OTHER KINDS TO AVOID DAMAGING THE FLEXIBLE HOSES.

NB! This installation instruction is not a direct instruction for a specific faucet, but is used for all faucets with similar parameters, so the faucet shown in the pictures may visually differ from the one you purchased.
