| Height           | 60 mm     |
| Weight           | 40 kg     |
| Default Material | CreaCore® |

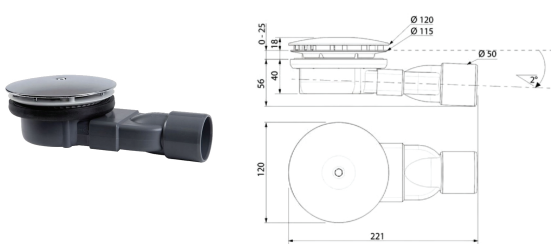

**DESCRIPTION**

Milano shower tray made of CreaCore silky mat solid surface. Seamless and hygienic, nonporous and anti-bacterial, practical and easy to maintain, aesthetic and durable, repairable and renewable.

The pimples located in the user's area create their own unique design of the product and also give the surface of the shower tray anti-slip properties.

The wide raised area at the front edge of the shower tray allows for easy installation of glass partitions and also prevents water leakages from the shower to the bathroom floor.

Shower siphon (included in set)

| SPECIFICATION                         |             |
