

Touchless soap dispenser Apollo

299-3203-2X

DESCRIPTION

Automatic touchless faucets and soap dispensers are hygienic and water efficient solution for your bathroom or public restrooms, such as schools, hospitals, airports, restaurants, shopping malls, cinemas. Using sensor beams the automatic faucet or soap dispenser determines when an object is in front of it and automatically turns on and automatically turn off when there is no motion.

Benefits of automatic touchless faucets and soap dispensers:

- Help to avoid spreading germs and grime, eliminate bacteria from being spread from person to person
- Reduces water waste by eliminating unnecessary and unattended water flow.
- Gives patrons confidence that their restroom experience will be clean, comfortable, and convenient.
