

Touchless faucet and soap dispenser Sigma set

299-3204-5X

DESCRIPTION

Automatic touchless faucets and soap dispensers are hygienic and water efficient solution for your bathroom or public restrooms, such as schools, hospitals, airports, restaurants.

**Benefits of automatic touchless faucets and soap dispensers:**

- Help to avoid spreading germs and grime, eliminate bacteria from being spread from person to person
- Reduces water waste by eliminating unnecessary and unattended water flow.
- Gives patrons confidence that their restroom experience will be clean, comfortable, and convenient.

**Faucet is designed for cold and pre-mixed water.**

For pre-mixed water, need to be purchased separately to operate:

- thermostatic mixing valve (product code 952-0004-32) - 1 pc for a maximum of 6 mixers, or
- mechanical mixing valve (product code 952-0004-33) - 1 pc for maximum of 3 mixers

SPECIFICATION

Type	deck-mounted faucet and soap dispenser
Sensor type	Infra-red(IR) sensor activation
Flow rate	2.0 l/min
Power supply	AC (110-240V)+DC (6V - 4x1.5V alkaline battery)
Power consumption (faucet)	Active modes≤3.5W, Standby modes 0.8mW
Power consumption (soap dispenser)	Active modes≤3.5W Standby modes 0.5mW
Sensing distance	10-30 cm (adjustable by regular magnet)
Cleaning liquids type	liquid soap, foaming soap, desinfectant
Warranty	2 years
Certificate	WRAS and CE approved, UKCA, SAA, UL
